the committee gave itself up to discussion.

Most of the session was devoted to earnest debate on the McMillan bill to prevent cruelty to children in the District "and for other purposes." The committee was solid on the provisions which protect the children, but there was diversity of sopinion as to the "other purposes." Some of the Senators were satisfied that the docking of horses' tails was cruelty of a very decided and reprehensible type; others inclined to the belief that nature could be improved upon bythe application of electricity—a new and, as they stated, comparatively vainless method. Then ensued a critical examination of the bill, some of the criticisms being antagonistic, evidently for the purpose of the bill, some of the criticisms being antagonistic, evidently for the purpose of bringing out all the arguments which might be made in opposition to the measure. One Senator thought it was a question whether chickens or sparrows could legally be executed should the bill become law. The limbilities of corporations for the cruel acts of their employes was also sampthing of a stumbling block. It

Baltrimore, March 4.—Cardinal Gibbons has addressed the following circular letter to the archiehops and bishops of the United States:
"My attention has been called to the suggestion that it would be eminently fitting to celebrate with solemn religious observances the 12th day of October next, commemorative of the discovery of America. The most of the committee. gestion that it would be eminently fitting to celebrate with solemn religious observances the 12th day of October next, commemorative of the discovery of America. The most reverend archbishop of New York and other prelates with distinguished laymen have made the request that the archbishops and bishops be addressed with a view to the taking of some concerted action in the matter, so that on the day mentioned in all the dioceses special religious services be held. It has also been thought that these might be supplemented, wherever practicable, by some civil celebration in the evening.

"With all deference I take the liberty of submitting the subject to your grace's consideramitting the subject to your grace's considera-tion. A united action on the part of the hierarchy would enhance the glory of the cele-bration and invest the day with particular

solemnity. I need not say that I myself am in favor of the proposed celebration. LIQUOR DEALERS' BILL.

It Was Considerably Changed When B ported to the New York Assembly. ALBANY, N. Y., March 4 .- In the assembly to day the liquor dealers' excise bill was favora compromise between those favoring the original bill and those who opthe original bill and those who opposed it. Of the five sections attacked by the opponents of the measure, Sunday opening, eating-house license, the "spy clause," rivildamage repeal and local option repeal, three have been stricken out entirely, leaving simply the "spy clause" and the civil damage repeal in. The Sunday opening clause has been entirely obliterated, and the eating-house license clause also expunged.

tirely obliterated, and the eating-house license clause also expunged.

A new section has been added to the bill providing that "nothing herein contained shall apply to any town where the majority of voters have voted for or shall hereafter vote for local prohibition in accordance with any law providing for such voting until such towns shall reverse by vote such local prohibition." amended it in a few unimportant particulars.

On Monday at 10 o'clock hearing will be given in the Senate District committee room to all parties interested in Senator Peffer's bill to regulate the practice of medicine in the Dis-

The committee was unanimous in reporting the bill as so amended.

A bill was also favorably reported making it unlawful for any person or persons to enter into any agreement whereby the price or sale of goods or merchandise shall be limited, fixed or regulated.

AFFAIRS AT ELLIS ISLAND. The Cougressional Investigation Will Begin

The Cougressional Investigation Will Begin
Tomorrow Morning.

New York, March 4.—The congressional committee which is here to investigate affairs at Ellis Island, will begin tomorrow morning.

Col. Weber, superintendent of immigration, said today: "I shall afford the committee every means in my power to get at the facts. I understand the committee wants to find out how the money was expended in constructing the immigrants buildings. It has been charged that there was a vast waste of money, With that I have nothing to do. It is no fault of mine that the immigrants brought typhus germs into this port. While in my department they showed no evidence of the disease."

The committee decided to report adversely the bill for the relief of sundry citizens of the District. The bill suthorized the committee on claims to examine and ascertain the losses of about 200 citizens who claimed to have been injured in their business by the tearing down of the market house which once covered the ground now known as Mount Vernon Square. The committee decided that the proposed beneficiaries under this bill had their recourse in the courts; that they failed to avail themselves of this right except in one instance, and in that case the court decided against the claimant.
